

# CARTER GROUP SHIPS ITS 7<sup>th</sup> MILLION LINEAR POWER MODULES

OAKVILLE, ON (November 1<sup>st</sup>, 2006) Carter Group:

Since January 2002 the employees of Carter Group have provided over (7m) Linear Power Modules to GM vehicles. These modules have a failure rate of less than (4) ppm.

Carter is the North American leader in LPM technology and owns several patents around HVAC in automobiles. These are a limited number of vehicles that have a Linear Power Module designed and manufactured at Carter Group.
